

## Speaking and Pronunciation

What I want most now is a computer.

I have a computer, but I want a new one.

I would like a computer with the following features.

- 1: It must be light, preferably less than 1kg.
- 2: The battery should last 10 hours or longer.
- 3: It must be chargeable with a Type-C cable.

I need it during my business trips.

I prefer a brand-new computer.

I'm not considering buying a secondhand computer.

My budget is 100,000 yen.

Let me know if you have any recommendations.
