

Speaking and Pronunciation

If there were a time machine, I would want to go back to the Jomon Era.

The Jomon Era started around 15,000 years ago and lasted for about 10,000 years.

During this era, people hunted and fished for food.

They made various tools.

There were organized communities.

I want to know how people lived.

I also want to know what they ate and drank.

Besides, I want to know the languages they spoke.

There are many things we still don't know about this era.

That is why I am very interested in the Jomon Era.
